

Newsflash

Cessna Caravan tip-to-tail solutions with minimum turnaround time

As a Cessna Caravan operator, your top priorities are availability and performance. Rely on our comprehensive portfolio of maintenance, repair and overhaul (MRO) capabilities for airframe, engine, propeller, and accessories – all from a single source. Optimise your MRO planning and keep downtime to a minimum.

Single point of contact

RUAG helps you to get the best value out of your aircraft. We hold FAA & EASA Part 145 approvals and are a Part 21 approved design organisation (DOA). This allows us to perform major modifications and repairs on the airframe and the avionics, keeping your aircraft flying to state-of-the-art standards. We listen to your requirements and make sure we find the best solutions to meet them.

Tip-to-tail solutions

We are an experienced team of skilled and passionate aircraft MRO professionals. You can count on RUAG – as an Authorised Textron Aviation Service Centre (ASC) – to provide flexible, reliable, and cost-effective MRO services for your Cessna Caravan aircraft. We combine our broad Cessna MRO capabilities with our loan and exchange services for the PT6A-114 engine. Choose RUAG and overhaul or repair your engine within a well-established network, saving you both time and money. You benefit from the best-in-class parts distribution and logistics provided by Textron Aviation to further improve the availability and price of spare parts.

RUAG – a trusted OEM resource

- Maintenance specialists with more than 30 years of experience
- One-stop shop ideally located to serve customers in Europe and Africa
- Recommended Service Facility for Hartzell propellers
- Authorised Warranty and Repair Station for Honeywell fuel control units and the PT6A engines

Minimum downtime, maximum availability

Optimise your turnaround time with our one-stop shop. RUAG offers tip-to-tail solutions for Cessna Caravan aircraft, including airframe MRO, system upgrades, component services, loaner/exchange/overhaul/repair options for PT6A engines, and consultancy.
