

# LOVING YOUR JET

## Strength from a humble and constructive attitude

### What is your job at RUAG?

Team Leader MRO. I talk with each customer to get a feel of what they really want and then plan the project with my team.

### What do you enjoy the most about your job?

I love solving technical issues. My father started his long career as a technician for the Italian Air Force, so aircraft maintenance is in my blood.

### What aspect of your job is the most challenging?

Managing a team that is solving a set of complex technical issues.

### How do you meet the challenge?

Mutual trust. Our team honors this strength. And a humble, constructive attitude lets us be open to new solutions.

### What inspires you?

People earning a living honestly  
Bringing older and loved objects back into safe, daily operations  
Knowing my daughter is growing up in a serene and loving environment

---

### Gabriele Ghilardi, Team Leader MRO, RUAG, Agno

**Hobbies:** Restoring vintage cars and motorcycles  
**Passion:** My family. Plus, boating and fishing with them on Lake Lugano  
**Motto:** Teamwork is the secret!

---

Together  
ahead. **RUAG**
