

Newsflash

Enhancing a dynamic and innovative image – a new aircraft livery for a Bombardier Global Express XRS.

A high-profile customer chose to optimise the maintenance downtime at our one-stop shop in Munich. Our customer was able to realise their vision of their ideal aircraft image – the Carboneum design, by Didier Wolff, of Happy Design Studio – with the artistry and flawless finishing techniques achieved at our dedicated aircraft painting facility. Our skilled professionals reproduced a series of design elements featuring precise and intricate patterns that recall high performance, fibre-reinforced technology materials, such as carbon and honeycomb structures. Responding to our customers' unique requirements remains a driving force behind our performance and our passion for extraordinary aircraft liveries.

Carboneum design – strength and momentum

The Carboneum design is a vision of energy, momentum, and performance, accurately reproduced on the Bombardier Global Express XRS with painstaking attention to every last detail. Superior craftsmanship and the full scope of technical expertise ensure durability of the innovative and complex design elements.

Your reliable and expert resource in Central Europe

Aircraft painting is essential to our one-stop shop aircraft support services. We implement new designs, partial repaints, and exceptional special effects, achieving outstanding and consistent results. You realise additional time and cost savings when you choose to optimise your scheduled downtime at our conveniently located, state-of-the-art aircraft painting centre.

Your schedule, our one-stop shop solutions

Our one-stop shop implements complete aircraft solutions from a single source, suiting your individual schedule. Our specialists perform all required services, including line, base and heavy maintenance checks, system upgrades and cabin interiors, within one single downtime – effecting faster turnaround times and maximising your profit options.

Realise your vision of your ideal aircraft livery. Contact us today.
