

## Newsflash

**Tell us your priorities. Our one-stop shop provides the aircraft services you select within one single heavy maintenance downtime so you enjoy a prompt return to scheduled operations.**

**“Our one-stop shop is ready to save-the-day for your business aircraft requirements. Just like your trusted pocketknife, we have the skills and solutions you need from one single source to give you the edge on profitable operations.”**

David Ricklin, General Manager Site Geneva, RUAG Aviation

### Versatility and reliability

Your priorities are our guidelines. On your behalf, we ensure streamlined processes for reliable aircraft availability and responsive solutions, with services tailored to your operational goals and environments. Our team supports your aircraft with thorough engineering expertise and OEM, EASA, and FAA approvals.

### Trust, reliability and full project transparency

Personal contact and trust are essential to all good relationships. We strive to respond to your individual needs by keeping you continuously informed on findings and solutions, saving you both time and money. Customers also benefit from 24/7 AOG support, competent support and consulting, and full-service FBO facilities.

Select RUAG Aviation as your partner for all your aircraft needs.
