

Cessna Caravan Series MRO

Tip-to-tail solutions for your Cessna Caravan. RUAG Aviation delivers comprehensive MRO services to improve the availability and performance of your aircraft.

Description

As an **OEM Authorised Cessna Caravan Service Centre**, RUAG Aviation provides reliable and cost-effective tip-to-tail maintenance, repair and overhaul services for the Cessna Caravan. Our extensive portfolio of proven MRO solutions is based on decades of experience supporting various types of aircraft, engines and accessories at all levels of service.

RUAG Aviation is **FAA and EASA approved** for **PT6A-114 turbines**, **Hartzell propellers** and **Honeywell fuel controls**. We are also a Honeywell Authorised Warranty and Repair Station (**AWARS**) for **PT6A turbines** and a **Hartzell Recommended Service Facility**.
