

# RUAG MRO International

## Company Profile

RUAG International is a Swiss company, focused on aerospace, headquartered in Zurich, Switzerland with locations in 14 other countries. The company is divided into four areas: Space, Aerostructures, MRO International and Ammotec. RUAG International employs around 6'000 people, around two thirds of whom work outside Switzerland.

RUAG MRO International is an independent supplier, support provider and integrator of systems and components for civil and military aviation worldwide. It also develops and supports simulation and training systems and solutions for international trained security forces.

Highly specialized in the support of aircraft and helicopters throughout their entire life cycle, the company includes maintenance, repair and overhaul services, upgrades, and the development, manufacture and integration of subsystems and components in their service portfolio.

In addition, as the manufacturer (OEM) of the Dornier 228, a versatile aircraft for special missions as well as passenger and cargo operations, RUAG focuses on customer support solutions, including OEM services.

Moreover, RUAG MRO International is a developer, OEM and system support provider for simulation and training systems technology for live, virtual and constructive (LVC) training. Complex and flexible functions, and a holistic approach, support realistic training scenarios, adapted to mission goals, at individual, team and unit instruction levels.
