STC for Garmin GTN 750 Flight Deck Upgrade on the Piaggio P180 Avanti

RUAG presents the only fully EASA-approved STC for advanced cockpit solutions for your Piaggio P180 Avanti – matching complete avionics modernisation with the aircraft's tradition of innovation.

Enhanced operational advantages and prolonged value

Your Piaggio P180 Avanti provides steady performance. Upgrading and integrating the communications and navigation systems with this Garmin cockpit suite expands the capabilities of your P180 Avanti. You benefit from heightened situational awareness, improved safety and extended aircraft value.

Expert STC integration, efficient solution

A recognised STC specialist, RUAG Aviation's expertise and proven economies of scale ensure precision and efficiency, as well as attractive conditions. You can trust us to manage your Piaggio P180 Avanti upgrade within 4 to 6 weeks, depending on the selected avionics configuration. Installation kits and wiring looms are prepared in advance to minimise the downtime.

Optimise your downtimes with our one-stop shop services

The proposed upgrade can be combined with heavy maintenance inspections, C or D checks for instance, or landing gear overhaul. Our one-stop shop solutions allow us to perform all required services within one single downtime, adapted to suit your individual schedule – effecting faster turnaround times and maximizing your profit options. RUAG Aviation is a Piaggio Authorised Service Centre and Garmin dealer with broad experience in all aspects of system upgrades.
