

Newsflash

Ensuring availability for your Bell 429 with our trusted MRO services

You depend on your Bell 429 for your successful operations. RUAG Aviation is your trusted partner for guaranteed reliability and nose-to-tail Bell know-how. The versatile Bell 429 is now included in our service portfolio at our Bell Helicopter authorised Bell 429 Customer Service Facility at Sion, Switzerland.

Customer location, service location

Bell Helicopter strongly believes in enhancing regional support for customer needs. We recognise this commitment and dedicate our life cycle services to reliably serving Bell 429 helicopter customers in Switzerland and Europe. As an Authorised Customer Service Facility, we guarantee aircraft availability every time. Conveniently located, your Bell 429 experiences shorter turnaround times, as well as proven expertise.

Passion for helicopter MRO

Helicopter readiness is an intrinsic part of our heritage and key to our core competencies – facts attested to by helicopter operators worldwide. On your behalf, RUAG supports your Bell 429's requirements with highly trained and experienced specialists providing comprehensive maintenance, repair and overhaul (MRO) services and an extensive array of state-of-the-art solutions for complex system upgrades, advanced avionics, and airframe and component MRO. You benefit from improved safety, enhanced performance and increased comfort.

Optimized downtimes

Make one stop with your helicopter and benefit from individualised support and integrated solutions – all at a Central European location. And, our considerable expertise ensures you enjoy a full set of additional services including cabin interiors, helicopter painting, guarantee services, AOG and various support & consulting services.

Look forward to reliable and cost-effective aircraft readiness. Contact us today.
