

Together
ahead. **RUAG**

Newsflash

When your aircraft stands still and needs to fly, RUAG provides immediate AOG services – anywhere in the world.

You need your aircraft to keep flying with as little downtime as possible – your business and your schedule depend on it. Our specialists promptly resolve your AOG issues whenever and wherever your aircraft finds itself grounded, ensuring your aircraft is up and flying, and ready to work for you.

Partner for urgent availability

You can rely on our AOG services to get your aircraft back in the air as fast as possible. Technical issues, repairs, and spare parts, as well as inspection and certification events, are all managed by our AOG specialists. Any time, day or night, our **AOG hotline** is open to provide solutions just for you – just call +800 78 242 642 or +800 RUAG AOG B.

Meeting your AOG needs quickly

Our support team is ready to meet all your AOG requirements and more. We will provide the expertise and targeted solutions necessary for both quick action and long-term results. What's more, our AOG services are firmly backed by our in-house competencies – one-stop shop capabilities fulfilling all MRO, cabin refurbishment, system upgrades, and interior and exterior painting requirements. RUAG is dedicated to effecting faster turnaround times so you can maximize your profit options.

We go the distance so your aircraft can too. Simply call us.
