

Together ahead. **RUAG**

Newsflash

Personalise and enhance the cabin of your factory new, or recently purchased, Bombardier Global aircraft. Our cabin interior specialists in Munich work together with you and Bombardier to realise custom configuration and restyling solutions.

Working closely with an India-based customer and Bombardier, our one-stop shop in Munich fulfilled a custom refurbishment on a recently-purchased Bombardier Global 5000. As a Bombardier Authorised Service Centre, we introduced an additional divan, restyled the leather and fabrics, and refinished all wood surfaces. The customer also chose to optimise the aircraft's downtime, selecting IFE connectivity upgrades and window shade enhancements.

State-of-the-art innovations, your inspiration

Style and technology are constantly evolving, shaping your vision of your own VIP cabin interior. We are your reliable partner for implementing your individual style and updating inflight technology.

Flexibility for custom VIP cabin solutions

We have a passion for custom configurations, restylings and upgrades. The team at our cabin interiors showroom in Munich are at your service, providing carefully crafted solutions to specifically match your requirements.

Your schedule – our Bombardier expertise for heavy maintenance checks

Providing personalised cabin interiors and state-of-the-art cabin management systems is just one way in which RUAG supports your Bombardier aircraft requirements. Our one-stop shop implements complete aircraft solutions from a single source, suiting your individual schedule. Our specialists perform all required services, including line, base and heavy maintenance checks, system upgrades, and aircraft painting, within one single downtime – effecting faster turnaround times and maximising your profit options.

Design your personal vision. Contact us today.
