

LOVING YOUR JET

Patience and meticulous attention to detail

What is your job at RUAG?

I make sure the surface of your aircraft is protected by cleaning and polishing it.
And, of course, we paint it!

What do you enjoy the most about your job?

Every aircraft surface is special. So I love the fact that I am always doing something different.

What challenges you most in your job?

The surface has to be flawless because you see every detail. We have to be meticulous and precise to get the polishing and painting perfect.

How do you meet the challenge?

Patience and following through, every step of the way.

What satisfies you the most at the end of the day?

To see a beautiful surface and know that I created that.

Christophe Duport, Appearance Team & Painting Technician, RUAG, Geneva

Hobbies: Football, karting and skiing
Passion: I love working with my dad at RUAG!
Pets: My dog, Neyo
Motto: Never give up!

Together
ahead. **RUAG**
