

**Betreff:**

Maintain and modernise your MD 500 and MD 600

## Newsflash

### Maintain and modernise your MD 500 and MD 600

Periodic maintenance improves your helicopter's efficiency and availability, thereby increasing its service life. Short turnaround times and cost-effective solutions mean that your benefits are maximised through our innovative and reliable MRO and upgrade solutions.

#### Certified solutions

RUAG Aviation is newly authorised to perform the full range of maintenance, repair, overhaul (**MRO**) and **upgrade** services for the **McDonnell Douglas MD 500** and **MD 600** helicopter series.

From the latest avionics to advanced cabin systems, our decades of experience maintaining and modernising helicopters enables you to profit from reduced cost and maximum uptime.
